

# Getting Started with XCStats

## 1. How to Create an Account

We are using XCStats.com this year to keep our team statistics and to provide useful tools for goal setting, team communications and training. **NOTE: All athletes are required to create an account on XCStats!** Parents do not register separately - they are registered by their athlete in this process.

If you have already created an account on XCStats, you only need to login to assure that you have added your parent's addresses. Login and go to the "Edit My Account" page to add them. If you have forgotten your password, use the "Lost Password" link to retrieve it.

If you are creating a new account, please have your parents email addresses handy.

Please note that the same email address cannot be used for both athlete and parent. If in doubt on the question "Have Results in XCStats?", enter Yes, then scan the pulldown list for your name. If not there, select No.
